

GSE-Certified UCD Solution Provider

DocMagic's GSE-certified solution satisfies every phase of the complete UCD mandate. Our goal is to make it easy for you to implement successful Uniform Closing Dataset (UCD) submissions to the GSEs.

We're here to help you meet all requirements and establish your UCD process.

- ✓ Automatic data quality and compliance validations
- ✓ Supports the embedded XML, SMART Doc® requirement today
- ✓ Combines (merged) borrower and seller CD
- ✓ Integrated to title systems to share XML data

We know there's a lot more to the UCD requirement than creating a closing XML data file. Many providers are only partially certified — or not certified at all. DocMagic makes it easy to implement your full UCD file generation and delivery process.
